

Experience:

Trident has established an extensive experience base in our 11 years of operation. With over 400 projects completed we are able to offer a level of expertise that can't be matched by any other independent CRO in the region. Trident has extensive experience across Phase I-IV studies, with both medicines and devices.

Trident has without doubt the most experienced management team in the region. With our management team averaging 17 years clinical research experience the personal expertise brought to Trident is extensive. Trident is also recognized as a leading provider of experienced monitoring teams and proactive project management.

Trident has diverse therapeutic experience with our key areas including oncology, cardiovascular, CNS, pain/analgesia and inflammatory diseases. Please peruse the experience grids below for details of our extensive study experience.

Phase 1:

During the past 11 years Trident has conducted nearly 100 phase 1 studies. These studies have been conducted at Phase 1 units, hospitals settings and clinical trial units. We have undoubtedly the most phase 1 monitoring experience in the region, and are the preferred provider for key phase 1 units in Australia.

Experience Grid

Anaesthesia:

Anaesthesia	Phase
General Anaesthesia	III
Local Anaesthesia- Hernia	II
Local Anaesthesia - Appendectomy	II
Local Anaesthesia - Hernia	II
Local Anaesthesia - Rotator Cuff	II
Local Anaesthesia- Hysterectomy	II

Arthritis:

Arthritis	Phase
Fibromyalgia	II a
Osteoarthritis	II
Rheumatoid and OA	IV
Rheumatoid Arthritis x 3 studies	I
Rheumatoid Arthritis	I b
Rheumatoid Arthritis x 2 studies	II a
Rheumatoid Arthritis x 5 studies	III

Cardiovascular:

Cardiovascular	Phase
Angina	III
Anticoagulation	III
Anti-platelet x 4 studies	I
Platelet Aggregation	I
Aortic aneurysm stent x 2 studies	I
Atrial Fibrillation	III
CABG	II a
Cardiovascular monitoring software/CABG	II
Coronary artery stent	I
Hyperlipidaemia	III
Hyperlipidaemia	IV
Hypertension	III
Myocardial Infarction	III
Stroke	II b

CNS:

CNS	Phase
ADHD	I
Anxiety	I
Anxiety	III

Alzheimer's	III
Bipolar	II
Central Neuropathic Pain	III
Cognition	I
Depression/Anxiety	I
Major Depressive Disorder X 4 studies	II
Major Depressive Disorder X 4 studies	III
Head Injury	III
Insomnia x 2 studies	III
Multiple Sclerosis	II
Neural Damage Prevention Post CABG	II
Parkinsons	I
Parkinson's Disease x 2 studies	III
Peripheral Neuropathy	
Schizophrenia	III
Stroke x 2 studies	II
Stroke	II b
Stroke	III

Dermatology:

Dermatology	Phase
Antimicrobial Gel	I
Basal Cell Carcinoma	II
Bowen's Disease	II
Leg Ulcer	III
Melanoma	II
Psoriasis x 3 studies	I
Psoriasis	II
Complicated Skin Infections	II
Transdermal delivery / PK x 2 studies	I
Wound Management	III

Device:

Device	Phase
Aortic aneurysm stent	
Aortic aneurysm stent	
Cardiovascular monitoring software	
Coronary artery stent	
Deep venous thrombosis (device) CV	
Dental Implant	
Dental Implant	
Inhalation device (with drug)	III
Peritoneal Dialysis	
Retractable syringe	
Wound Healing/Bandage	III
Fentanyl Transdermal Delivery -Device	I

Endocrinology:

Endocrinology	Phase
Androgen Replacement	IV
Diabetes	II a
Diabetes	II
Diabetes x 9 studies	III
Diabetes - Type 1	II
Diabetes - Type 1	III
Diabetes- Type II x 3 studies	III
Metabolic Syndrome	II
paediatric/adolescent diabetes	III
Renal Transplant	IV
Stroke, secondary CV events in Diabetic 2 Patients	II b

Gastrointestinal:

Gastrointestinal	Phase
Appendectomy	II
Crohns x 4 studies	III
Gastric pH	I
Haemorrhoids	II
Irritable Bowel Syndrome	II a
Diabetes - Type 1	III
Diabetes- Type II x 3 studies	III
Opioid Induced Bowel Dysfunction x 2 studies	III
Paediatric Constipation	II
Paediatric diarrhoea	IV
Paediatric Nutrition	II b
Paediatric Reflux	IV
Ulcerative Colitis	II

Haematology:

Haematology:	Phase
Deep Venous Thrombosis x 7 studies	III
Idiopathic Pulmonary Fibrosis study	
Pulmonary Embolism	III
Anaemia	IIIb
Idiopathic thrombocytopenia (ITP)	I

HIV

HIV	Phase
HIV	I
HIV - antimicrobial gel	I
HIV x 7 studies	III
HIV Observational study	IV

Infectious Disease

Infectious Disease	Phase
Antimicrobial Gel	I
Catheter related Sepsis	III
Complicated skin and skin structure infections	II
Cystic Fibrosis - Infection prophylaxis x 2 studies	III
Early stage sepsis in Adults	III
Foot Infection in Diabetic Pts	III
Genital Warts	I b
Hepatitis C x 2 studies	IV
Hospital-Acquired Pneumonia (in ICU)	III/IV
Intra-abdominal Infection	III
Major skin related infections	III
Major Skin-related Infection	III
Meningococcal Adolescents	III
Meningococcal Toddlers	III
Onychomycosis	I
Paediatric sepsis	III
Penile Microbicide	I
Pneumonia	III
Ventilator-Associated Pneumonia	III

Oncology:

Oncology	Phase
Breast Cancer x 2 studies	III
Breast Cancer - Advanced	III
Breast Cancer - Metastatic	III
Colon Cancer	III
Colorectal Cancer x 2 studies	II
Colorectal Cancer x 2 studies	III
Colorectal Cancer	III b
Digestive Tract	II
Gastric- Metastatic	II a

Glioma - Paediatric	II
Head and Neck	II
Leukemia	III
Leukemia - Acute Myeloid	II
Lung - Non Small Cell	II
Lung - Non Small Cell x 2 studies	III
Lymphoma - Aggressive	III
Lymphoma - Diffuse large cell	IV
Lymphoma - Follicular	III
Melanoma x 2 studies	I
Melanoma	II
Multiple myeloma	II
Pancreatic	I
Prostate	III
Renal Cell Carcinoma	II
Sarcoma	II
Solid tumor - General	I
Solid Tumor – General (GCSF)	III
Solid tumour - Advanced x 2 studies	I
Throat	III

Paediatric:

Paediatric	Phase
Paediatric Constipation	II
Paediatric diarrhoea	IV
Paediatric Nutrition	
Paediatric Reflux	IV
Paediatric sepsis	III
Meningococcal Adolescents	III
Meningococcal Toddlers	III
Paediatric Allergic Rhinitis	III
Paediatric/adolescent diabetes	III
MPS VI	Survey Study
MPS VI	II

Paediatric Influenza (x 3 studies)	I
Cystic Fibrosis - Infection prophylaxis	III
ADHD	I
Cystic Fibrosis	III
Head Lice	
Lennox Gastaut Syndrome	
Meningococcal Adolescents	III
Meningococcal Toddlers x 2 studies	III
Paediatric sepsis	III
Cystic Fibrosis - Infection prophylaxis x 2 studies	III

Pain:

Pain	Phase
Acute Migraine x 2 studies	I
Migrane	II a
Acute Pain x 2 studies	I
Central Pain	III
Central Pain- long term follow up	III
Fibromyalgia	II a
Fibromyalgia	II
Fibromyalgia	III
Fibromyalgia	Start-up
Opioid Induced Constipation	IV
Opioid Induced Hypogonadism	II a
PK PD IV Morphine Part 1/Part 2	II a
Post Operative Pain Post Hip Replacement	III
Post Operative Pain Post Arthroscopic Shoulder Surgery	II

Renal:

Renal	Phase
Renal Dialysis	IV
Renal Transplant	III
Idiopathic Overactive Bladder	I
Diabetic Nephropathy - Microalbuminuria x 2 studies	II
Diabetic Nephropathy - Overt Proteinuria	III

Respiratory:

Respiratory	Phase
Asthma x 6 studies	I
Asthma x 2 studies	I/II
Asthma	I b
Asthma	observational
COPD	II
COPD x 3 studies	III
Cystic Fibrosis	I
Cystic Fibrosis	II
Cystic Fibrosis x 3 studies	III
Cystic Fibrosis & Bronchiectasis	I
Hospital-Acquired Pneumonia (in ICU)	III/IV
Insomnia x 2 studies	III
Paediatric Allergic Rhinitis	III
Respiratory Tract Infection	I
Ventilator-Associated Pneumonia	III

Sexual Health:

Sexual Health	Phase
Erectile Dysfunction	II
Erectile Dysfunction x 2 studies	III
Erectile Dysfunction x 2 studies	IV
Genital warts vaccine	II
Premature ejaculation x 2 studies	II
Male Testosterone lotion	II

Vaccine Studies:

Vaccine Studies	Phase
Avian Influenza	I
Dengue Fever Vaccine x 2 studies	I
Influenza x 6 studies	I
Influenza (elderly) x3 studies	I
Genital Warts Vaccine	Ib
Genital Warts Vaccine	II
